

Welcome to the Fallbrook Senior Center's Storytelling Project

The *renewed* Fallbrook Senior Center is evolving and recently has emerged in 2024 from a nearly year-long process of needs assessment, surveys, interviews, and strategic planning with an **exciting vision for the future**.

This plan includes a new **Intergenerational Programming offering** to our seniors.

We have recently established a regional Storytelling Project that puts young, student producers together with senior storytellers in our community to artfully document in recorded media the "stories behind the stories" as shared by our more *experienced* community members (Fallbrook, Bonsall, Rainbow, and De Luz areas).

Our mission is to engage and support our growing "senior" population in healthy, meaningful, and ACTIVE ways.... "Transforming the Experience of Aging".

Helping seniors older, experienced, vintage adults be: Heard
Known
Impactful !

"Sharing Our Past & Creating the Future Together"

We have created a Digital Archive of our stories (more added monthly), and you may view these very brief (3 minutes) and compelling personal narratives at <https://www.fallbrookseniorcenter.com/digital-storytelling>.
